Who We Are

AUS2018 will tackle ‘diffused responsibilities’: societal challenges that individuals struggle to overcome due to inertia. Such complexities are typically met with confusion or apathy, and responded to by passing on responsibility to others. *Where do I even begin? Why should I care? Someone else will handle it.*

Each year, the Summit kicks off with participants travelling to **1 of 4 Overseas Host Universities**. There, students from Singapore and around Asia travel to one of four regional universities, and attend AUS Programmes tailored by their hosts around the Summit’s Theme. Following this, participants will gather in June for the **Singapore Leg**, hosted by NUS.

The topic of AUS2018’s Singapore Leg will let participants explore how **redesigning our spaces**, both physical and virtual, can **nurture communities**. In other words, **how might we enable society to reclaim its diffused responsibilities by building conducive spaces?**

Why Participate?

Join us if you want to go on an exciting learning adventure. One that is **multicultural**, that lets you **meet with undergraduates and experts from Asia’s great universities**, and speak to leaders of regional **NGOs**. The AUS Experience will broaden your horizons with thought-provoking seminars, and experiential learning outside of classrooms. Be prepared as well to pick up a robust set of skills, including:

Design Thinking

Pitch Presentations

Street Interviewing

Ethnographic Techniques
