

Asian Universities Alliance Academic Conference 2018 University of Yangon

CALL FOR PAPERS

The International Academic Conference on the topic of “**Academic Conference on Sustainable Environmental Conservation: Water Resources**” with the financial support of Asian Universities Alliance will be hosted at the **University of Yangon, Yangon, Myanmar** on **4 December 2018**.

The research of universities plays an important role in providing problem solving and policy making concerning sustainable water sources. Universities collaboration in doing research on freshwater conservation is a supportive tool to sustainable development. Development experts and environmental scientists in finding solution on safe water use and river conservation are essential for sustainable development. River utilization is important factor in socio-economic development and ecological stability of a country.

We sincerely invite scholars or postgraduate students in relevant fields from AUA member universities to submit their papers, which will be reviewed for selection. We look forward to welcoming participants to the conference.

I. Theme

The Theme: **Sustainable Environmental Conservation: Water Resources**

This academic conference aims to shed light the importance of water sources among universities among AUA, to strengthen efforts on protection of water sources and major rivers in Asia, to explore fresh water studies and water development, and to develop water studies and researches in university education. We expect the outcome of this conference is new or innovative research finding on policy recommendations for environmentally sustainable use of water sources.

II. Time and Venue

Time: **4 December 2018**

Venue: **Yangon University Diamond Jubilee Hall, Yangon, Myanmar**

III. Eligibility
