

발 신 : QUALCOMM인사부

제 목 : Qualcomm 채용 공고 (신입직 소프트웨어 엔지니어 및 엔지니어링 인턴)

1. 귀교의 무궁한 발전을 기원합니다.
2. 퀄컴은 세계 최대의 팹리스 반도체 기업으로 현재 스냅드래곤(Snapdragon™) 모바일 프로세서 및 고비(Gobi™) 모뎀, 뷰포리아(Vuforia™) 증강 현실 서비스, 아이자트(IZat™) 위치인식 솔루션, 김발(Gimbal™) 정황인식 서비스, 올조인 (AllJoyn™) 오픈 소스 모바일 P2P 솔루션 등 혁신적인 연구 및 기술 개발에 있어 선두 기업으로서의 입지를 굳히고 있습니다. 또한, 퀄컴은 매년 전체 매출의 20% 이상을 R&D 에 투자해 지속적인 혁신과 성장을 이끌고 있으며, 이를 통해 전체 모바일 산업 발전에도 이바지하고 있습니다.
3. 지원은 이메일 (recruit_korea@qualcomm.com) 혹은 Job 사이트 (<http://jobs.qualcomm.com/>) 통해 하실 수 있고 관련 문의 사항은 폐사 인사부 김희영 차장 (02-3404-1173)에게 해 주시기 바랍니다.

Job Title	Job Requirement
<p>Internship: Qualcomm Driver Application Intern</p> <p>https://jobs.qualcomm.com/public/jobDetails.xhtml?requisitionId=1914006&page=jobSearch</p>	<p>This is challenging position that requires the candidate to learn and internalize QCT software and operation concepts quickly.</p> <p>Key Skill Sets Required:</p> <p>C development and debugging skills required</p> <p>Knowledge of Embedded OS architecture, drivers and operation is preferred</p> <p>Major in Computer Engineering/Computer Science/Electrical Engineering preferred</p> <p>*** Must be Student Status</p> <p>*** Good programming skills</p> <p>*** Able to work for 6 months</p>

<p>Hardware Technician (5-6 months)</p> <p>https://jobs.qualcomm.com/public/jobDetails.xhtml?requisitionId=1914008&page=jobSearch</p>	<p>This position requires good skill in board reworking and board-level debugging through tight co-work with internal HW Apps engineers.</p> <p>- BS in Electrical Engineering/Computer Engineering or BS. / MS. candidate in Electrical Engineering/Computer Engineering preferred</p>
<p>Software Engineer. IP Multimedia Subsystems (IMS)</p> <p>https://jobs.qualcomm.com/public/jobDetails.xhtml?requisitionId=1889987&page=jobSearch</p>	<p>Strong interest in mobile industry experiences</p> <ul style="list-style-type: none"> -Good understanding or enthusiasm on mobile industry and mobile devices -Strong ability to Write/Read C/C++ codes -Good understand on Object Oriented based approach and debugging background -Good understanding on various 3rd party Oses like Android, Windows Mobile, Windows Phone and Linux -Strong knowledge on working experiences on IMS, and relevant protocols such as SIP/SDP, RTP/RTCP, XML -Good understanding on data protocols stacks such as RLP, PPP, TCP, UDP, IP, IPv4/v6, MIP, RFCs -Good understanding and knowledge on 3GPP and 3GPP2 standard is a big plus -Experience on MMD and IWLAN is a plus -Experience on Qualcomm solution (MSM/AMSS) is a plus -Fluent English is required. Communication with other colleagues in English should not be problem -Self starter, active participant and good team player <p>Education: Bachelor's degree in Electronic Engineering / Radio & Science Engineering / Electrical Engineering is required. Master's degree in Electronic Engineering / Radio & Science Engineering / Electrical Engineering is preferred.</p>
<p>WLAN (Wi-Fi) Software Application Engineer</p> <p>https://jobs.qualcomm.com/public/jobDetails.xhtml?requisitionId=1910446&page=jobSearch</p>	<p>A bachelor degree in EE/CS engineering with 2 to 5 years or a master in EE/CS engineering with 0 to 2 years of related working experiences developing S/W for networking/embedded/mobile products and/or supporting semiconductor solutions (wireless connectivity preferred).</p> <p>Education: Required: Bachelor's, Electrical Engineering/ Computer Science Preferred: Master's, Electrical Engineering/ Computer Science</p>
