

Lund University Get Started Funding 2024

Lund University (LU) is launching Lund University Get Started Funding aimed at researchers from Lund University and select partners in non-EU/EEA countries newly associated to Horizon Europe or whose association is expected soon (Canada, Korea, New Zealand, Switzerland, UK and Ukraine)*.

Funds of up to SEK 60 000 SEK per award are available to develop collaborations which have the potential to lead to externally funded research projects and joint publications.

Researcher teams (LU + partner university) are invited to submit applications in any academic field. Applications will be assessed in relation to the quality of the application. If all applications that adequately fulfil the key assessment criteria cannot be funded, priority will be given to new collaborations and researcher teams that include early career researchers.

Maximum amount of funding	60.000 SEK
Deadline for submission of application	21 August 2024
Notification of outcomes	September 2024
Funding period	1 October 2024 – 31 July 2025
Applicant	Researcher with PhD degree employed at Lund University
Participant	Researcher with PhD degree employed at one of the select partner universities

Activities eligible for funding:

- Workshop/meeting costs, such as facilities, food, technical support, etc.
- Travel, subsistence and accommodation costs of participants

Salary costs, consumables and scholarships for students are not eligible.

***Partner universities in Korea**

Korea University, POSTECH, Seoul National University

Allocation of funding

The total expenses for activities and travel costs cannot exceed 60.000 SEK.

Application guideline

The application must be submitted by the LU researcher through the application portal and shall include:

- Aim of the collaboration
- Description of the activity
- Timeline of the activity
- Confirmation of interest from the researcher at the partner university
- Short CV of each of the researchers (LU and partner university)

Key assessment criteria

- Strategic value of the research collaboration
- Complementarity of the research partners/team
- Potential for subsequent larger collaborative projects and potential to generate external funding
